**Dreams come true!** Listen to the magical ocean tunes every day.

Starting from US\$ 905.000,-

Blue Bay Real Estate Phone: +5999 868 2536 • [www.bluebay-realestate.com](http://www.bluebay-realestate.com) • [realestate@bluebay-curaçao.com](mailto:realestate@bluebay-curaçao.com)

**We are working on the final details of our new maintenance building, located on the right side of the main gate at the Blue Bay Resort entrance. This September, we moved our offices to this new building.**

**Be warned,** though, as you may fall in love with the majestic floor-to-ceiling wooden doors, or the big round windows, or the relaxing garden with a fountain. Come visit us in our new offices. Many of them outfitted with large glass walls to take in the peace emanating from the zen garden.

start to finish. Prospective owners can get acquainted with prime real estate objects, and discuss their dream plans with architects, while we let our creativity loose on how to bring our guests a great experience.

**We're in the final phase** of the state-of-the-art Service Center we've been building in the west of our Welcome Center. It has a large central parking area and plenty of room for all Blue Bay employees working in these offices.

**The Plantation House** will continue to be the golf reservation center and accommodations front desk with a large terrace now serving breakfast and a brand new, better and delicious lunch menu. Plans to renovate and further develop this beautiful architectural gem in the near future are under way.

Arkitektura and Bouwplus B.V., are cohabiting this Welcome Center. An oasis of peace and luxury in which visitors can have their dream home created from

# Come See Spirit, or Try to Find Prince

**Our Blue Bay family grew with 2 more members this summer: a tiny seahorse and an orange frogfish have taken up residence at our house reef, The Wall.**

**T**hose who have dived The Wall before probably already know Bella, our beautiful turtle living on this reef. And now Spirit the seahorse and Prince the frogfish are begging to get acquainted too. Frogfishes are a very rare find, making us very excited that Prince chose The Wall as his home.

Blue Bay Resort is home to two house reefs, The Wall and The Garden. The Wall is renowned on the island for its one-of-a-kind diving experience. Located on the right side of the bay, The Wall

is a continuance of the cliff that can be seen there, rising up from the sea. That cliff's wall drops down for another 56 meters in the ocean, offering divers a straight wall of pristine coral life dancing by in front of their masks as they glide by. The Wall is the only dive site in Curaçao that offers straight-wall diving. Mostly untouched by the effects of human habitats, The Wall is a true coral and other reef life gem.

*Ready to meet Spirit and Prince? Book your PADI Discover Scuba dive online at [diveshopcuracao.com](http://diveshopcuracao.com) or just walk in.*

## Ocean Drive Update

**Our 9 exclusive lots, Ocean Drive, one of our most desirable development projects, is now almost accessible by car.**

**C**WM is putting the finishing touches to the road and the Aqualectra infrastructure leading to this exclusive area, opening up the possibilities for prospective buyers to easily view the 9 exclusive lots for sale here. With this first phase of the project completed, sales of 8 Ocean Drive lots can take flight.

This sensational location right on the former 18<sup>th</sup> hole of the Blue Bay Golf course offers phenomenal sea views and maximum privacy due to the very spacious lots. It is without a doubt one of the most desirable sections of the entire resort. Those interested in living here will soon be able to visit our Welcome Center and have all their real estate needs catered to.

*Ocean Drive: Phenomenal sea views and maximum privacy*

## Employee Highlight

At Blue Bay Resort, we are continuously learning and upgrading. A selection of Blue Bay employees from our golf, accommodation, and beach divisions recently attended a 3-day intensive course hosted by CHATA (Curaçao Hospitality and Tourism Association). This training was geared toward improving hospitality and service to our guests. Upgrading our skills to keep giving the level of service we want our guests to enjoy is an important part of investing in our guests' experience at our resort.

Looking at the pictures we realize that all who successfully completed the courses are women... Congratulations to these dedicated ladies.

### Hospitality Certificates

*F.l.t.r.: Shanneree Matthew, Myrna Dossett, Maritska Pawirodinomo*

### Supervisor Course

*Isabelle Sturkenboom, Mishanou Marchena, Liseth Poulina, Cherrel Leito, and General Manager: Madelinde Moesbergen*

## Sculpture Garden

**O**ur Garden Route welcomes a sibling: The Art Garden at our Plantation House. So far, this 2000m<sup>2</sup> garden holds five sculptures by renowned local artists. Each sculpture sits perched on a grey pedestal in varying sizes under the local trees, covering them with a shade canopy. Exquisite art pieces by Hortence Brouwn, Babs de Brabander, Ellen Spijkstra, Norva Sling, and

Yubi Kirindongo adorn the garden. Most have been donated to the foundation by Blue Bay residents wanting to contribute to both the artists' journeys as well as to Blue Bay Resort's legacy. The Art Garden Foundation aims to put up 2 dozen sculptures in the garden.

Come take a look and enjoy time in the Art Garden. You might even become a sponsor.

## 100% Natural Mini Facial

*Our new Mini Facial is the ideal way to pamper your after-beach skin and is designed to give your skin a burst of glow and leave you feeling beautiful and relaxed.*

*We use a combination of the best of several 100% natural skin products for this mini facial, which consists of a cleanse and a facial scrub, followed by an invigorating mask, and concluded with a facial massage that will leave your skin glowing and your soul nourished.*

*Take this quality time for yourself and look sparkling as you go into the sunset with your sweetheart.*

*Walk-ins are accepted, or make your appointment at + (599 9) 566 8852.*

## Service Center Backstage Blue Bay

**What do Blue Bay Resort's bobcats, lawn mowers, and golf carts have in common?**

**T**hey are all moving into a new home; our new Service Center building is nearing completion. Built like a hangar, this Service Center is like a 'Backstage Blue Bay'. Aside from its warehouse and maintenance function, it will also house some Blue Bay departments, such as Finance, Security,

Human Resources, Information Technology, Blue Bay Services and the golf superintendent. The large workshop will have a spacious room to safely store all the machines and tools used here at Blue Bay, and to do woodworking small building projects. Maintenance will become centralized under one roof.

There will be lockers, showers, a kitchen for our teams to enjoy meals comfortably, and a large palapa where they can take a break or have lunch. After clocking out, they can jump in their cars in the adjacent parking lot and head home. Those needing to be at the resort will be shuttled by bus to their respective work spot for the day.
